

Toxic Metals Detoxification Protocol

The following information supplies guidelines (only) for safe metals detoxification. This program may be used pre, during and post amalgam removal. You may follow the below protocol for 3 months then re-test metal levels.

Suggestion: Start with: Provocative Challenge: Porphyra-Zyme 6 tabs and Lipoic Acid Plus 2 capsules, twice daily, empty stomach for 7 days, on the 8th day while continuing Porphyra-Zyme proceed with a Doctor's Data Toxic Metals FECAL TEST KIT. Send via FedEx, on a Monday morning (DDS shipping account number is supplied; this is a no charge shipment).

Toxic Metals Detoxification Protocol

These products are considered dietary supplements only and are not intended to diagnose, treat, cure or prevent any disease, nor should their use to support functioning in patients that may have medical conditions be understood as a claim that Biotics does not treat those conditions or that Biotics does not endorse the use of their products to treat medical conditions. Patients who may have medical conditions should consult a physician to ensure proper diagnosis and treatment.

Suggestion for Metal Detox ~ Children

For every 3 Porphyra-Zyme add 1 Lipoic Acid Plus capsule for additional binding capacity. See table below

Age	Product	Dosage
1-3	Porphyra-Zyme	1 tab evening empty
4-6	Porphyra-Zyme	2 tabs evening empty
7-9	Porphyra-Zyme	3 tabs evening empty
	Lipoic Acid Plus	1 capsule evening empty
10-14	Porphyra-Zyme	4 tabs evening empty
	Lipoic Acid Plus	1 capsule evening empty
15-18	Porphyra-Zyme	5 tabs evening empty
	Lipoic Acid Plus	1 capsule evening empty
18-21	Porphyra-Zyme	6 tabs evening empty
	Lipoic Acid Plus	2 capsule evening empty

Adults take 6 X 2 empty stomach, morning and evening, for 7 days.

All PRE-provocative challenges should be for 7 days, then proceed with a "Doctor's Data" Toxic Metals FECAL TEST. Send via FedEx, on a Monday morning
