FOR MIGRAINE & FIBROMYALGIA

A Paradigm-Shifting Guide For Doctors  
Dealing With Chronic Pain

This latest pain research now allows you to switch from a lifetime of pain management to pain resolution.

## Textbook & 7-Hour Pain Mastery Audio Series

Pain Revolution by Dr. Alex Vasquez literally calls for and describes how to create a revolution in the way we look at and treat pain. Although the title and subject matter center around migraine and fibromyalgia, the principles apply to ALL TYPES of PAIN.

Dr. Alex Vasquez shows mechanisms why the body under-performs, resulting in PAIN; and how we can apply basic principles to reverse the internal and external factors which enable chronic conditions to remain chronic. He insists that, once we understand the why behind the condition, we can reverse the condition in a variety of ways.

The topics related to the underlying causes of pain include: viruses , mitochondrial repair, treatment for fibromyalgia and migraines. The beauty of this work is that he provides all the references, so you can document your therapies as well as systematically teaching you to become an expert.

The factors that create PAIN are on the rise and the medical therapies are not effective. Become the clinician who is known to be the pain expert in your community.

*This teaching will help you become the go-to pain clinician in your area.*
