Mastering The Science Of Integrative Blood Chemistry

A 2-Day Blood Chemistry Analysis Seminar
That Will Dramatically Improve Your Clinical Outcomes

Created & Presented by:
Harry O. Eidenier, Jr., Ph.D.
CE credits have been applied for
November 3rd & 4th, 2018
Franklin, TN

THIS NEW SEMINAR WILL UNDOUBTEDLY BECOME THE INDUSTRY'S GOLD STANDARD!

<p>Confidence Have greater confidence in your patients diagnosis</p>	<p>Tough Cases Get better results with tough cases by identifying metabolic imbalances</p>	<p>Referrals Increase referrals from patients, and from other clinicians</p>
---	---	---

This two-day seminar will allow practitioners to master, implement, and offer Integrative Blood Chemistry Analysis immediately in their practice. Mastering the science of Integrative Blood Chemistry along with a detailed medical history and physical exam will teach you how to:

- Pinpoint underlying blood chemistry imbalances that are implicated in chronic health conditions and how to apply targeted nutritional supplementation to balance blood chemistries.
- Identify hormonal, metabolic, and gastrointestinal contributors to patient's health with scientific accuracy.
- Dramatically improve your clinical outcomes and amaze your patients with your diagnostic skills.
- Answer with authority - "I feel terrible but my Primary Care Physician says that all my tests are normal".
- Get results on those hard-to-treat cases that other practitioners can't address.
- Understand how to identify pathology and when to refer the patient for further testing or offer more integrative care.
- How to grow and increase profitability of the practice by becoming an authority in Integrative Health Care.

All attendees will receive a Blood Assessment computer program, 200 page Blood Chemistry Manual, Quick Reference Guide and notes on Toxic Element Exposure.

**CEU's applied for by:
TCA and Logan College of Chiropractic**

12 Hours Applied for TN, MI, IN, OH, and MO

Integrative Blood Chemistry Analysis 1.6 is compatible with Windows versions 7, 8 and 10.. In order to successfully install this software on a Mac computer, you must first purchase a Windows to Mac program, such as Parallels Desktop 7 and Windows 7 before installing Integrative Blood Chemistry Analysis 1.6.

Dr. Eidenier has been working in the food supplement industry for over 30 years and prior to that he spent 21 years in the U.S. Air Force. Currently he is the director of the technical support division for Viotron International and D.S.D. International. He completed his undergraduate work at the Community College of the Air Force, Colorado State University and the University of Maryland and graduate work at Park College and Columbia State University (Ph.D. 1995). He is a member of the American Association of Clinical Chemists and the International Association of Research Biochemists. He also authored the Nutritional Protocol Manual and More Than a Bunch of Numbers and several articles in peer reviewed literature. He currently acts as the technical consultant for over 3,000 doctors in the United States, Europe and Asia.

WHAT IS INTEGRATED BLOOD CHEMISTRY ANALYSIS?

Integrative Blood Chemistry Analysis (IBCA) is an extremely effective tool used to evaluate comprehensively the status of patients' health. IBCA when utilized in a clinical practice can provide the doctor insight into the functions and imbalances of nearly all the major systems of the body such as:

- Gastrointestinal and digestive health
- Acid/base balance
- Blood sugar regulation
- Thyroid health
- Immune system health
- Toxicity and inflammation
- Nutritional deficiencies

This Is A Complete Course, Nothing Additional To Purchase Like Emailed Reports

November 3rd & 4th, 2018
Saturday: 8:30am - 5:30pm *(Lunch Included)*
Sunday: 9:00am - 1:00pm
